LASER ME

FACE

Trinity Protocol \$1100

For those wanting the full- face rejuvenation, this treatment is for you. Targeting pigmentation and capillaries, skin tightening and skin resurfacing.

Sublime Skin Tightening \$499

Do you suffer from skin laxity, or is gravity taking its toll? This effective treatment uses infrared technology to lift, stimulate collagen production and tighten the skin to achieve that luminous, toned, glowing skin. With no down time, this will leave your skin feeling 'sublime'.

Medical Sublative Skin Rejuvenation \$549

Do you suffer from acne, scarring, uneven skin texture or large pores? This treatment is for you! Using fractional Bi-Polar radio frequency technology (for those that don't know RF is colour blind, meaning it can treat all skin types). Using the combination of RF and infra-red technology is known as ELOS. Minor downtime.

IPL Photo Rejuvenation

Half Face \$260

Full Face \$499

This one is for the sun lovers. For the correction of sun spots, pigmentation, uneven skin texture, broken capillaries or diffused redness, with little or no down time.

Vascular Therapy

Large Area \$499

Small Area \$260

Did you know you can treat facial redness and flushing? Or do you suffer from rosacea? This type of redness is caused by tiny capillaries in the skin. There is a resolution to this! This treatment also helps those pesky leg veins!

Face Coach Fee \$49

Our consultations focus on the long- term approach to your skin. We want to learn about you, because we care about your skin health and well -being.
